### Course Educational Objectives (CEOs):

1. Course will exposed the students to the method of conducting the research work through study and analysis of a particular problem.
2. Course will provide the students about the latest instrument and machinery in the institute lab, various research lab and industry.

### Course Outcomes (COs):

Students will be able:

1. Apply the knowledge to study a particular problem
2. Analyse and solve the problem coming during their research work.
3. To create a aptitude for a research work

### Course Contents:

Each student will work in the institute lab / outside research / industry institute to study and conduct their research work.

The student continues to conduct their project work to a particular project under the guidance of the faulty guide allotted to them.

Time to time the student will meet their guide / co-guide to brief the progress of their work and also consult with their guides related to the problems occurring during their project work.

Each student has to give three power point presentations during the semester in front of the senior faculty members and research scholars.

At the end of the semester each student will be required to submit a final report of their work done which will be assessed by their guide for the internal valuation. The student are also required to appear in the end sem exam.
