

Overview of the Center for Vocational Studies

Shri Vaishnav Vidyapeeth Vishwavidyalaya has established the Center for Vocational Studies in the year 2019. The center is engaged in imparting training in skill-based activity in various vocations of diversified fields of agriculture, allied sciences including repair and maintenance of farm machinery. Such courses are meant for those individuals who are either school dropouts or those who do not want to take up formal education in any program of study.

Thus, with the purpose of capacity/capability building such individuals are trained in skills to enable them to be self-employed and productive for the society and help in national economy, the vocational courses are designed. Also, to stop their migration from their native places to far off places in search of job.

The certificate and diploma courses offered in vocational studies are:
