Cosmetic Science and Preventive Pharmacy

Scope: This syllabus provides a comprehensive understanding of cosmetic and cosmeceutical products, emphasizing the scientific principles and practical applications for skin, hair, and oral health. It delves into the role of herbal ingredients, addresses common cosmetic and health issues, and promotes awareness of personal hygiene, nutrition, and community health. This multidisciplinary approach equips students with the knowledge to address health-related challenges and improve overall well-being.

Objectives:

1. To classify cosmetic and cosmeceutical products and understand the basic anatomy and functions of the skin, hair, and oral cavity.
2. To study the principles of sun protection, sunscreen classification, and the role of herbs in skin, hair, and oral care.
3. To identify and analyze cosmetic problems related to the skin and hair, along with the mechanisms of antiperspirants and deodorants.
4. To promote awareness of the relationship between food, nutrition, and health, including the prevention of nutritional and vitamin deficiencies.
