## About Conclave

“Nirmiti – VIII” is a Two – days conclave, wherein the leaders of leading schools come together to evaluate and discuss the parameters for the betterment of school education in the country. This year theme of the conclave is *Hybrid Learning Models in School Education in India : Challenges and Opportunities*.

Practices in education system is one of the salient processes for nation building. The purpose of school education is to groom the youngest population of the nation for ethical decision making. It is important that every school becomes a community of virtues in which the values like integrity, hard work, honesty and kindness are nurtured. Education is not aimed at obtaining a certificate or degree only, it includes the efforts for character building and overall social improvement too. It is need of the hour that schools should incorporate the concept of hidden-curriculum which refers to the transmission of norms, values, and beliefs. The present scenario needs to undergo a radical change as the country's future depends on its children. With this thought, SVVV feels honored to invite the school principals from all over India in order to initiate discussion on the Hybrid learning model in school education for understanding the concerted efforts required for raising the quality of education in the country.
